## Welcome

Welcome to the Object Oriented ColdFusion site which will be providing a repository of information for developing object oriented web applications in ColdFusion.

You also might like to check out the [Object Oriented ColdFusion blog](#) or the [ColdFusion Design Patterns site](#).

## Got an OO question?

If you have any general OO question or a question about any of the content please post a message to the [Object Oriented ColdFusion Google Group](#).

Otherwise, you're welcome to [contact me directly](#).

## Table of Contents

Items noted as 'Stub' do not contain page content and only provide a list of related links

- [Getting Started with Objects](#)
  - [Procedural vs Object Oriented Programming](#)
  - [What is an Object?](#)
  - [Component Basics](#)
  - [A Simple Object](#)
  - [The Init\(\) Function](#)
  - [Creating Objects](#)
  - [Introduction to UML](#)
  - [Controlling Variable and Function Access](#)
- Object Oriented Concepts
  - [Object Oriented Terminology](#)
  - [Inheritance](#)
  - [Encapsulation \(Stub\)](#)

- [Encapsulation](#) (Stub)
- [Separation of Concerns](#) (Stub)
- [Dependency Injection](#)
